Projects

[ValarchiX ↗](#), **06/2026 – Present**

Personal Finance Learning Platform | Full Stack Web Development & Product Design

ValarchiX is a React, TypeScript, and Tailwind CSS-based personal finance learning platform featuring portfolio strategy simulations, mutual fund analyzers, retirement calculators, inflation-adjusted financial tools, and **Valarchi Vaathi**, an AI-powered finance tutor. It promotes evidence-based investing through interactive education while keeping all user data local and private.

[Marakadhey - Don't Lose Opportunities ↗](#), **2026 – Present**

A simple Chrome extension that helps you save important webpages and receive reminders before deadlines.

A live Google Chrome extension that helps users save important webpages and sets automated reminders so they never miss deadlines. Built using JavaScript and Chrome's Manifest V3 architecture, syncing browser notifications with Google Calendar.

[Sikkanam ↗](#), **2025 – Present**

Tamil Nadu Budget Travel Planner Web Development & Product Design

Sikkanam is a privacy first full stack travel PWA for 80 plus destinations built with React TypeScript and Tailwind CSS that features a custom OSRM mapping engine with dynamic 1.25x to 1.40x traffic and mountain terrain scaling factors for precise travel duration bounds. It pairs TNSTC and IRCTC inspired transit fare estimation pipelines with Google Gemini and Groq API orchestration to stream instant AI itineraries over serverless edge networks all while maintaining a zero data collection architecture that secures a verified 100 SEO and 96 Accessibility Lighthouse performance benchmark.
