ABOUT

Who Am I?

I'm an Electronics and Communication Engineering student at VIT Chennai who enjoys turning ideas into real products.

I like building practical things that people can actually use — not just projects that sit in a folder. Currently learning and growing as a developer, one project at a time.

JOURNEY

The Timeline

2024
Started exploring web development and building my first projects.

2025
Got into AI and travel tech. Started building Sikkanam and Marakadhey.

2026
Launched Sikkanam on Product Hunt. Published Marakadhey on the Chrome Web Store. Two live products out in the world.

Next
Keep building. Keep shipping. Keep learning.
