Projects

ValarchiX , *Personal Finance Learning Platform | Calculators with inflation adjusted* 06/2026 – Present
ValarchiX is a React, TypeScript, and Tailwind CSS-based personal finance learning platform featuring portfolio strategy simulations, mutual fund analyzers, retirement calculators, inflation-adjusted financial tools, and **Valarchi Vaathi**, an AI-powered finance tutor. It promotes evidence-based investing through interactive education while keeping all user data local and private.

Marakadhey - Don't Lose Opportunities , *A productive Chrome extension that helps you save important webpages and receive remainders before deadlines.* 2026 – Present
Marakadhey is a productivity-focused Google Chrome extension that enables users to save webpages and manage deadlines through intelligent reminder automation. Developed using **JavaScript** and **Chrome Manifest V3**, it supports **automatic desktop time zone detection** for precise reminder scheduling, recurring notifications, browser-native alerts, and **Google Calendar integration** for seamless cross-device deadline management.

Sikkanam is a privacy-first full-stack travel Progressive Web App (PWA) for **100+ Tamil Nadu destinations**, built using **React, TypeScript, and Tailwind CSS**. It combines a custom **OSRM routing engine**, **Open-Meteo weather forecasting**, TNSTC & IRCTC-inspired fare estimation, and AI-powered itinerary generation through **Google Gemini and Groq APIs**. The platform leverages **Firestore Authentication, MongoDB Atlas**, and **Supabase** for secure cloud synchronization across devices and is deployed on **Vercel's serverless infrastructure**, delivering a seamless travel planning experience without collecting personal user data.

Work Experience

Danfoss Industries Pvt Ltd, Student Intern

05/2026 – 07/2026

Oragadam, Chennai

- Developed a Power Apps **Timesheet Management System** integrated with SharePoint for efficient timesheet submission and validation.
- Designed interactive **Power BI dashboards** to visualize business data and support data-driven decision-making.
